DOMINION ORDERS IN COUNCIL.

[1,002.]

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 21st day of May, 1910.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

THE Minister of the Interior states, under date 13th May, 1910, that the Vancouver Power Company, Limited, has submitted to him plans and reports by its engineers of certain proposed hydraulic undertakings by it in the Railway Belt in the Province of British Columbia which the Company claims are rendered necessary by the rapid development of the territory which it serves, and the consequent large extensions now being made and planned for in the near future of the electric railway system of the British Columbia Electric Railway Company, the parent Company of the said Vancouver Power Company.

The said Vancouver Power Company's plans contemplate the use of the waters of two lakes, viz.: Chilliwack Lake and Jones Lake, both lying south of the Fraser River and about eighty (80) miles east of Vancouver. Chilliwack Lake being situated partly within and partly outside of the Railway Belt and at an elevation of 2,080 feet above the sea, and Jones Lake lying about twelve (12) miles north-west of Chilliwack Lake wholly within the Railway Belt and at an elevation of 1,950 feet above the sea.

The proposed development will require, before being proceeded with, that the Company shall be assured of acquiring title, but for the purposes of these hydraulic undertakings only, to certain undisposed-of lands of the Crown in the right of the Dominion for the purpose of sites for dams and power-works and for right-of-way purposes, for

flume and tunnel construction and roads; and certain other lands are required for flooding purposes, and which latter lands, in accordance with the practice of the Department of the Interior as to lands for such purposes, would be leased only, and for the purposes of the hydraulic undertakings only.

The development in connection with Chilliwack Lake involves for the present a rock-filled timber-crib dam at the outlet near the north end of the lake to raise the level of the lake about 20 feet. A permanent dam fifty (50) feet in height to be later on substituted below it. About half a mile down the Chilliwack River from the lake (the said river being the outlet of the lake) a lower dam will be built to divert about 50 per cent. of the normal flowage of the waters of the river out of the stream-bed into a flume or ditch. From this diverting dam a flume or ditch will be constructed for about 10½ miles westerly along the valley of the Chilliwack River, but so as to carry a suitable grade, to a point on a tributary named Ford Creek, from which point a tunnel will be constructed 5¼ miles in a north-westerly direction towards the Fraser River, where the power-house will be situated on Section 15, Township 3, Range 28 west of the 6th meridian.

The development in connection with Jones Lake involves for the present a rock-filled timber-crib dam at the outlet of the lake to raise the lake-level about 20 feet. A permanent dam of 50 feet in height to be later on substituted below it. From the most westerly suitable point in Jones Lake a tunnel will be driven in a westerly direction for a distance of about 10,200 feet towards the point on the Fraser River where the water from Chilliwack Lake is delivered.

The estimated continuous horse-power on the wheel-shaft at the power-house as given by the Company for the Chilliwack Lake development is 80,000, using 500 cubic feet of water per second, and for the Jones Lake development 16,300 when using 100 cubic feet per second.

The estimated cost of the proposed works is given in the Company's applications as \$7,148,400 for the Chilliwack Lake development and \$2,206,625 for the Jones Lake development, making a grand total of \$9,355,025, and the Company states that the proposed Chilliwack Lake development is one of the largest and costliest ever undertaken on this continent. It is expected that about six years will be required to complete the Chilliwack Lake development and about two years and a half to complete the Jones Lake development. In both cases the time required may be somewhat longer, owing to adverse conditions due to elevation, climate, absence of roads, etc. Detailed figures are given in the reports of the Company's engineers accompanying the applications and showing how the amounts given are made up. Copy of the Company's application in respect of the Jones Lake application is hereto attached marked "A." The application in respect of Chilliwack Lake is dealt with in another memorandum to Your Excellency in Council of even date herewith.

The Minister is impressed with the desirability in the public interest of encouraging the development of the unused natural resources in the waters of the two lakes referred to in the applications by giving the desired assurance as to the conveyance of the lands required under proper provisions safeguarding the public interest and the interests of timber lessees on lands in the district affected by the proposed works, and with provisions also guaranteeing the continuous prosecution to successful completion within a reasonable time of the said undertakings, and therefore recommends in respect of the Jones Lake application that he (the Minister) be authorised to at once have prepared an agreement to be entered into between the Minister of the Interior as representing the Government of Canada and the Company, and which shall contain provisions covering the following matters:—

1. The safety of the proposed dams and other works.

Detailed plans and specifications to be submitted to the Minister for approval by him as soon as practicable and within one year from date, and

such plans and specifications to be examined by an engineer of recognised standing in such matters, appointed by the Minister of the Interior, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company, and such plans and specifications to be subject to such changes as the said engineer may advise, before being approved by the Minister. Provision to be also made so far as the Minister of the Interior considers necessary in the public interest for inspection by an engineer appointed by the Minister, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company. The works to be inspected by said engineer as they are proceeded with after the plans and specifications are approved.

2. Rights in the waters of Jones Lake for agricultural and domestic purposes.

The rights that may be claimed in the waters flowing from Jones Lake for agricultural and domestic purposes to be safeguarded by a provision that the Minister may require the Company to release such water for the purposes stated as he may from time to time direct.

3. The rights of lessees of timber from the Department of the Interior on lands surrounding the said lake or on the river flowing out of the said lake, in respect of the use by the said lessees of the waters from the said lake for the purpose of driving logs.

The Minister to have the right to direct from time to time at the request of such lessees that the Company shall release such water for the purpose of driving logs out from the said lands under lease surrounding the said lake and along the river, as he may think proper in the interest of the said lessee.

4. The rights of any of the above lessees so far as timber rights under licence to them will be prejudicially affected by the proposed flooding of lands surrounding the said lake.

The Company to file in the Department of the Interior, before actual construction commences under the plans and specifications to be furnished by the Company and approved by the Minister, a release and settlement with each of the said lessees as to any rights to timber within lands under lease to them respectively and which will be prejudicially affected by the proposed raising of the waters of the said lake.

5. Timber on lands belonging to the Crown in the right of the Dominion and not under licence and which may be used or destroyed by the Company.

The Company to pay into the Department of the Interior the usual dues under the regulations on all such timber.

6. The question of possible injury to fishing interests through the erection by the Company of any of the proposed dams.

The Company to file in the Department of the Interior, before actual construction under the approved plans and specifications has been commenced, a statement by the proper officers of the Marine and Fisheries Department that all provisions considered necessary have been made in the plans and specifications.

7. Provision for the faithful carrying-out of the dams and works and for the payment by the Company of all damage that may be caused by the said dams or works.

(a.) In the erection of the dams and works the Company shall faithfully adhere to the plans as finally approved by the Minister, subject to such modifications as may be found necessary and shall be approved by the Minister.

(b.) The Company shall, if required, submit to the Department of the Interior detailed plans of any portion of the works as they are developed.

(c.) Weekly reports of progress during construction shall be submitted to the Minister.

(d.) The Minister shall have the right to place an Inspector on the work for the purpose of seeing that the dams and other works are carried out in accordance with the approved plans and the proposed agreement; the salary of such Inspector to be paid as is hereinbefore provided.

(e.) The Company shall after the completion of the dams maintain and operate the same to the satisfaction of the Minister, who shall have the right, at the expense of the Company, to have the same inspected as the Minister may require by an officer appointed by the Minister.

(f.) The Company shall furnish and keep in force security approved by the Minister for the payment by it of all damage that may at any time be occasioned by the construction or operation of the dams or works, or by any breaking of or other injury to said dams or works, after their construction, and the said security shall also be held to cover any ascertained damages to lands on the Jones River by reason of the normal flow of the water being diverted from said stream.

8. The Company's application to purchase land for its works.

The Minister to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "B," and to be authorised to convey, under conditions hereinafter fully set out, to the said Vancouver Power Company from out of the said lands the following:—

(a.) Land necessary for site of temporary and permanent dams at the outlet of Jones Lake, not exceeding eighty (80) acres.

(b.) Land necessary for tunnel portals for the tunnel to carry the waters of Jones Lake, not exceeding eighty (80) acres in all.

(c.) Land necessary for the right-of-way 400 feet wide for the tunnel to carry the waters to be diverted from Jones Lake and extending from the land to be granted for the upper portal of the tunnel to the land to be granted for the lower portal.

(d.) Land necessary for the right-of-way 400 feet wide for the steel outlet-pipes connecting the said tunnel with the power-house.

(e.) Land necessary for the power-house and works on the Fraser River, area to be decided by the Minister, but not exceeding one hundred (100) acres.

9. The Company's applications for land for flooding purposes around Jones Lake.

The Minister to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "C," and to be authorised to issue a lease in the name of the Company for such portions of the said lands, estimated at a total of 3,057 acres around the lake, as are found on actual survey by a Dominion Land Surveyor, employed by the Company and under instructions from the Department of the Interior, to lie below contour lines 50 feet above the normal level of the said lake; said lease to provide for an annual rental, payable each year in advance, of 25 cents per acre, and to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development by the Company, and said lease to be issued only after the conveyance to the Company of the land for its other works as herein provided for.

10. The Company's applications for land for roads.

The Company to be allowed to lay out and survey through lands the property of the Crown in the right of the Dominion, by a Dominion Land Surveyor, land necessary for a roadway along the Jones River to Jones Lake to give access to any of the proposed works; and the Company shall not be called upon to make any payment for such land to the Government, but shall survey the said roads within one year of the date of this Order in Council, and upon approval of the survey by the Surveyor-General, cause the said land to be dedicated to the public for use for roadway purposes.

11. Continuous prosecution to successful completion of the proposed undertakings.

The Company to proceed with diligence with the construction of the works as soon as practicable after approval of its plans and specifications by the Minister of the Interior, and to spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000. The Company to

complete all the works in connection with the Jones Lake development within five years of the said date of approval of the plans and specifications; and—

(a.) Should the Company not file plans and specifications for approval within one year of the date of this Order in Council; or

(b.) Should the Company not spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000; or

(c.) Should the Company not use due diligence in prosecuting the work to successful completion for the remainder of the period allowed; or

(d.) Should the Company fail to complete the said works within the said five years,

He may call on the Company to show cause why he should not withdraw the reserve on all the lands applied for, and why he shall not declare the Company to have forfeited all claim on any of said lands; but if the Company shall show to the satisfaction of the Minister that it has spent not less than a quarter of a million dollars on the Jones Lake development in each year subsequent to the first year, after the approval of the plans and specifications, then no action shall be taken by the Minister towards the withdrawal of the reserve on any of the lands until the expiration of the five-year period allowed for completion.

12. The conditions to be fulfilled before conveyance to the Company of any of the lands applied for.

(a.) Completion of all the works connected with the development of the water-power from Jones Lake to the satisfaction of the Minister in accordance with the terms of this Order in Council, as hereinbefore provided for.

(b.) Payment by the Company into the Department of the Interior of the required amount at the rate of ten (10) dollars per acre.

(c.) Patents to the Company to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development of the Company.

(d.) The Company to file in the Department of the Interior plans of survey by a Dominion Land Surveyor approved by the Surveyor-General showing the land required.

(e.) Persons in occupation of any of the land. The Company to procure and file in the Department of the Interior unconditional release of claim of any person in occupation of any of the lands at the date of this Order in Council.

13. The approval of the Company's undertakings, and authority to proceed with construction.

When the Company's plans and specifications have been completed and approved by the Minister of the Interior as hereinbefore provided for, the Minister to be authorised to give the Company permission to proceed with its undertaking.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

VANCOUVER POWER COMPANY, LIMITED.

VANCOUVER, B. C., May 9th, 1910.

Honourable Frank Oliver,

Minister of the Interior,
Ottawa.

Jones Lake Development.

SIR.—I have the honour, on behalf of the Vancouver Power Company, Limited, further referring to our application to you dated March 11th, 1910, in which we applied for two hundred (200) cubic feet per second of water out of Jones Lake, District of Yale, Province of British Columbia, to respectfully submit the following:—

Vancouver Power Company, Limited.—The Company is one of the subsidiaries of the British

Columbia Electric Railway Co., Ltd., and was incorporated January 25th, 1898, pursuant to Part IV. of the "Water Clauses Consolidation Act, 1897," of the Statutes of British Columbia. The objects for which the Company was established were (inter alia) the acquisition of water for hydro-electric development, the generation of electricity for light, heat, and power purposes, and the construction and operation of electric railways, etc. The Company owns and operates the Coquitlam hydro-electric undertaking, and furnishes the British Columbia Electric Railway Company with all the electric energy required for operating its railway, lighting, and power systems on the mainland of British Columbia. The Company also owns the railway, light, and power systems in North Vancouver, City and District, and is at present constructing an electric railway, sixty-five miles in length, from the City of New Westminster easterly through the Fraser Valley to the City of Chilliwack. It has also in contemplation the construction of other lines which will materially assist in promoting the development and prosperity of the lower mainland region of the Province, but cannot actively prosecute these new enterprises until assured of a further power-supply.

The capital of the Company is \$2,500,000, fully paid, but it has expended to date over \$5,000,000 on its hydro-electric development and railway enterprises.

Jones Lake.—The lake is situated in a valley high up in a spur of the Chem Mountains east and north of the Town of Chilliwack, and about seven miles east of Agassiz, a station on the Canadian Pacific Railway. The lake lies at a level of about 1,950 feet above sea-level, its surface area is 1,263 acres and its drainage area is approximately forty square miles. There are no fish in the lake, and there is no settlement in the locality owing to the rough and mountainous conditions thereabouts. No Crown lands have been alienated in the district affected by the proposed undertaking, but application has been filed for one or two small areas adjoining the Fraser River in the section on which it is proposed to erect the generating plant and its accessories. Several timber licences have been issued on lands bordering the lake.

Plan of Development.—It is proposed to construct at first a rock-filled timber-crib dam at the outlet of the lake of sufficient height to raise the lake-level 20 feet and at a later date to construct a 50-foot dam of permanent type.

Before the level of the water in the lake is raised by means of the dam, a tunnel will be driven from the most westerly point on the shore-line through the mountains to their western slope in the valley of the Fraser, a distance of 10,200 feet, and from the outlet of the tunnel to the power-house located on the bank of the Fraser River the water will be conveyed by pressure-pipes, 6,000 feet in length.

To begin with it is proposed to utilise 100 cubic feet per second, which under an effective head or fall of 1,800 feet will develop 16,300 continuous horse-power on the wheel-shaft, and given a peak load of 27,200 horse-power. There will be three 10,000 horse-power maximum output water-wheels of the impulse type, and the power-house will be constructed of concrete and fire-proof throughout.

For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, on the Jones Lake proposition. This report gives a full general outline of the plan of development.

Lands Required.—The land required for this undertaking is shown on the accompanying map, and is as follows:—

Around Jones Lake	3,057	acres.
Tunnel right-of-way 400 ft. wide.	94	"
Pipe-line	58	"
Power-house site	446	"
Total.....	3,655	"

These areas have been taken from map measurements as the Government surveys have not been completed in this district. Probably somewhat more land is applied for for power-house purposes than is absolutely necessary, but on account of the

importance of the undertaking and the magnitude of the expenditure involved, which with the Chilliwack Lake development will reach a total of over \$10,000,000, it is thought best to secure ample room for the homes of the large staff of employees which will eventually be gathered there, as well as for the many buildings, shops, etc., which are accessory to the main plant.

The total area of land applied for surrounding the lake—namely, 3,057 acres—is more than actually required, but following the regulations laid down by the Department the whole of each subdivision touched is included. The actual flooded area when the 50-foot dam is built will be approximately 1,040 acres.

Cost of Undertaking.—The total estimated cost of the Jones Lake development is \$2,206,625 plus whatever charge may be made for the land conveyed. Details of cost will be found in the report of our Consulting Engineers, a copy of which is submitted herewith.

Requirements.—In order to be able to proceed at once with the work and complete the development in time to supply the rapidly growing needs of the territory which the Company serves, your favourable action on the following matters is respectfully requested:—

- (1.) Approval of the undertaking.
- (2.) Grant of licence to take from Jones Lake 200 cubic feet of water per second.
- (3.) Permission to erect a dam at the foot of the lake 25 feet in height at once, and ultimately to replace this with a dam 50 feet in height.
- (4.) Authority to divert the aforementioned volume of water from the lake by tunnel and flume to the power-house situated on Section 15, Township 3, Range 28, as shown on plans herewith.
- (5.) Authority to flood the area surrounding the lake as shown on plan herewith, and lease of said flooded areas.
- (6.) Permission to purchase a right-of-way 400 feet in width for tunnel and flume from the tunnel portal on the lake to said Section 15.
- (7.) Permission to purchase such portion of said Section 15 as may be necessary for power-house location and other purposes of the undertaking.
- (8.) Permission to purchase such area of land as may be required for dam-site and tunnel portals.
- (9.) Authority by Order in Council, in the absence of legislation bearing on the subject, to proceed with the undertaking at once.

Rentals and Conditions.—The Company agrees:

- (1.) To pay the Government such rate for water licensed as the regulations of your Department may require.
- (2.) To pay such price for tunnel and flume right-of-way and power-house location as you may fix.
- (3.) To pay such rental per acre for the flooded areas as you may fix.
- (4.) To compensate the timber-licence holders for such portion of their limits as may be flooded by raising the level of the lake, and also for such other timber as may be contained in the tunnel and flume right-of-way.
- (5.) To compensate any squatters now occupying any portion of the lands required for the undertaking, and to reimburse your Department any cost which it may incur in investigating these or any other claims with respect to the proposed undertaking.
- (6.) To submit for your approval before the work of construction is begun the plans of the proposed dam, and to reimburse your Department for any engineering or other costs it may incur in investigating the suitability and stability of the plans submitted.
- (7.) To pay the royalty on all merchantable timber which may be removed or used by the Company in connection with its work.
- (8.) To faithfully perform all conditions and regulations which you may consider necessary and proper to impose.

Conclusion.—The time required to complete the Jones Lake development is estimated by our Consulting Engineers at not less than two years and a half, while owing to adverse conditions due

to elevation, climate, absence of roads, etc., the work may extend over five years. It is expected that our present development at Coquitlam will be fully absorbed in about three years, consequently it will be necessary for the Company to make an early start and prosecute the work on this undertaking rapidly and continuously in order to complete it within the time required. We therefore most respectfully solicit your early and favourable action herein.

I have the honour to be,
Sir,
Your obedient servant,
(Signed) F. R. GLOVER,
Asst. General Manager.

AT THE GOVERNMENT HOUSE AT
OTTAWA.
Saturday, the 21st day of May, 1910.
PRESENT:
HIS EXCELLENCY THE GOVERNOR-
GENERAL IN COUNCIL.

THE Minister of the Interior, under date 13th May, 1910, refers to the Order in Council of even date herewith, referring to two applications by the Vancouver Power Company in connection with hydraulic undertakings in the Railway Belt of British Columbia, proposed to be undertaken by

it—the one in connection with Jones Lake, which lies wholly within the said Railway Belt, and the other in connection with Chilliwack Lake, which lies partly within and partly outside the said Railway Belt. Copy of the Company's application in respect of Chilliwack Lake is hereto attached marked "A."
The Company in its said application in respect of Chilliwack Lake asks, in addition to its application for the necessary lands and approval of its proposed works and authority to proceed with construction of the same, all of which matters are dealt with in the Order in Council of even date herewith, that—

1. Licence be granted to take from the waters of Chilliwack Lake or River 500 cubic feet per second.
2. Authority be given to divert the volume of water as above stated from the said lake or river by tunnels and flumes as described in the said Order in Council of even date.
3. Authority be given to flood the areas within the Railway Belt surrounding Chilliwack Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Company has already applied, under date September 8th, 1909, for a licence to take from the waters of Chilliwack River 40,000 miner's inches of water; 40,000 miner's inches of water is equivalent to slightly over 1,111 cubic feet per second.

The Minister sees no objection to the present application of the Company in respect of the matters above referred to being granted under proper control as to the rental to be charged for the use of the water and the rates to be charged to consumers of the power, so soon as the authority of Parliament is given vesting in Your Excellency in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, and subject to the fulfilment of all the conditions of agreement provided for in the Order in Council of even date herewith relating to the lands necessary for the development in connection with Chilliwack Lake, and therefore recommends that he be authorised to have prepared an agreement to be entered into between the Minister of the Interior, as representing the Government, and the Company, and which shall contain provisions covering the Company's application for licence to take and divert 500 cubic feet per second of the water of Chilliwack Lake or River and to flood the areas within the Railway Belt surrounding Chilliwack Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Minister of the Interior agrees, on behalf of the Government of Canada, that so soon as the authority of Parliament is given vesting in Your Excellency in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, but subject to the fulfilment of all the conditions of the agreement provided for in the Order in Council of even date herewith relating to the land necessary for the development in connection with Chilliwack Lake, he shall cause to be issued to the Vancouver Power Company a licence to divert and use 500 cubic feet per second of the waters of Chilliwack Lake or River, such licence to be issued under regulations similar to those now in force governing the administration of water-power in Manitoba, Saskatchewan, Alberta, and the North-West Territories; and in issuing this licence for the use of water to the said Company, such licence shall conform as nearly as may be to clauses 1, 2, 3, 5, 6, 7, 8, 9, 10, and 11 of the said regulations, except only that portion of subsection "f" of said section 8 which relates to the return to the stream or other source of water of the full amount of water diverted.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

VANCOUVER POWER COMPANY, LIMITED.

VANCOUVER, B. C., 9th May, 1910.

Honourable Frank Oliver,
Minister of the Interior,
Ottawa.

SIR,—I have the honour, on behalf of the Vancouver Power Company, further referring to our application dated September 8th, 1909, to respectfully solicit your approval of our proposed undertaking in the matter of power development from Chilliwack Lake, District of Yale, Province of British Columbia.

Chilliwack Lake lies in the extreme south-western corner of the District of Yale, the lower end being close to the international boundary. The waters of the lake supply more than half the flow in Chilliwack River, which river is for many miles torrential in character, but in the lower reaches the grade flattens and the waters spread over the rich low-lying areas in Chilliwack and Sumas Municipalities, creating the chief obstacle to their successful reclamation. Any undertaking, therefore, which will result in the diversion of a considerable portion of the volume of water in Chilliwack River will bring the reclamation of these areas within practicable bounds. Under present conditions, the enormous cost of controlling and disposing of the waters of Chilliwack River places reclamation out of the question. Our Consulting Engineers estimate that 50 per cent. of the normal flowage will be diverted under the plan of development proposed, while the controlling dam which will be erected at the foot of the lake will regulate the lake discharge and tend to further reduce freshet volume. Consequently, the public interests will be greatly benefited by the carrying-out of the proposed undertaking.

The elevation of Chilliwack Lake is 2,080 feet above sea-level, and its area is about 2,600 acres. The extent of the drainage basin has not been definitely ascertained, as a portion of it extends the United States territory, and the country is so mountainous and rugged as to make it very difficult of access.

Water Required.—The quantity of water which we apply for is 500 cubic feet of water per second. This under an effective head of 1,800 feet will deliver 80,000 continuous horse-power on the wheel-shaft.

Plan of Development.—It is proposed at first to construct a rock-filled timber-crib dam at the outlet of Chilliwack Lake of sufficient height to raise the level of the lake 20 or more feet. The dam will be provided with a spillway for the passage of flood waters, and gates and valves for control and discharge of stored water. This structure will provide for sufficient storage to meet all water requirements until the power demand is so increased as to demand the full output of the ultimate development, when it will be replaced by a dam 50 feet in height.

About half a mile down-stream from the storage dam, a lower dam will be constructed to divert the water out of the stream-bed into a flume or ditch. This dam will also be provided with a spillway.

From the diverting dam a flume or ditch will be constructed on the north side of the river for a distance of 10½ miles to Ford Creek.

Before the level of the water in the lake is raised by means of the dam, a tunnel commencing at the end of the flume in Ford Creek Canyon will be driven through the mountains to the valley of the Fraser River. The tunnel will be 14 by 16 feet and 5¼ miles in length.

From the outlet of the tunnel steel pressure-pipes will be laid to the power-house erected in connection with the Jones Lake development on Section 15, Township 3, Range 28.

The initial installation will consist of three 10,000 horse-power water-wheels. Later additional power units will be added as required until the maximum development is reached.

Lands Required.—The lands required for this undertaking are shown on the accompanying map, as follows:—

Around Chilliwack Lake.....	2,679	acres.
Flume right-of-way, 400 ft. wide..	522	"
Tunnel "	245	"
Pipe-line "	51	"
	3,497	"

The flooded area is assumed to be 2,377 acres, but as required by the regulations of the Department all legal subdivisions are included intact. The actual area required around the lake will, therefore, be considerably less than the above figures. Provincial lands at the lower end of the lake are not included in this application.

There are no Crown-granted lands in the territory affected by this undertaking, nor are there any pre-emption applications from intending settlers.

Around Chilliwack Lake there is little or no timber, but on the mountain slopes bordering the river there are some fine bodies of timber, which are held under licence. The flume right-of-way will not affect these holdings in an important degree.

Cost of Undertaking.—The total estimated cost of the Chilliwack Lake development is \$7,148,400 plus such charges as may be made for the lands conveyed.

Further Details.—For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, which gives a full general outline of the plan of development, details of cost, and much other valuable matter.

Provincial Records.—The Vancouver Power Company holds three records from the Provincial Government of British Columbia covering 40,000 miner's inches of water out of Chilliwack. These records are numbered 45, 46, and 47 respectively, and were issued 17th January, 1908.

General Requirements.—Inasmuch as not less than six years, under the most favourable conditions, will be required to complete this development, the Company is very anxious to make an immediate commencement of work, and to permit of this, and so enable us to build roads and trails, establish camps, mills, and transportation facilities during the present summer, your favourable action on the following matters is respectfully requested:—

- (1.) Approval of undertaking.
- (2.) Grant of licence to take from Chilliwack Lake 500 cubic feet of water per second.
- (3.) Permission to erect a temporary dam at the foot of the lake 25 feet in height, and ultimately to replace this with a dam 50 feet in height.
- (4.) Authority to erect a diversion dam on Chilliwack River, and to divert the aforementioned volume of water from the river by flume and tunnel to the power-house situated on Section 15, Township 3, Range 28, as shown on plan herewith.
- (5.) Authority to flood the areas surrounding the lake as shown on plan herewith, and lease of said flooded areas.
- (6.) Permission to purchase a right-of-way for tunnel and flume 400 feet in width from the diversion dam on Chilliwack River to said Section 15.
- (7.) Permission to purchase such lands as may be necessary for dam-sites and tunnel portals.
- (8.) Authority by Order in Council, in the absence of legislation bearing on the subject, to proceed with the undertaking at once.

Rentals and Conditions.—The Company agrees:—

- (1.) To pay the Government such rate for water licensed as the regulations of your Department may require.
- (2.) To pay such price for tunnel and flume right-of-way, tunnel portals, and dam-sites as you may fix.
- (3.) To pay such rental per acre for flooded areas as you may fix.
- (4.) To compensate the timber-licence holders for such portion of their limits as may be flooded by raising the level of the lake, and also for such timber as may be contained in the tunnel and flume right-of-way.

(5.) To reimburse your Department any cost which it may be obliged to incur in investigating these or any other claims with respect to the proposed undertaking.

(6.) To submit for your approval before the work of construction is begun the plans of the proposed dam, and to compensate the Government for any engineering or other costs it may incur in investigating the suitability and stability of the plans submitted.

(7.) To pay the royalty on all merchantable timber which may be removed or used by the Company in connection with its work.

(8.) To faithfully perform all conditions and regulations which you may consider necessary and proper to impose.

Conclusion.—The Chilliwack Lake Development is one of the largest and most costly ever undertaken on this continent, but we consider it justified by the present and prospective rapid growth of our electric railway system, and industrial conditions generally in the lower mainland districts. The most serious drawback, however, to the undertaking is the length of time required in construction—namely, six years. One year of this will be required to build roads, organise transportation, and assemble construction equipment. For this reason, and in view of the fact that we fully expect to be urgently in need of additional power by 1916, it is of first importance that we be able to make a commencement this season. We therefore most respectfully solicit your early and favourable action herein.

I have the honour to be,
Sir,

Your obedient servant,

F. R. GLOVER,

Assistant General Manager.

AT THE GOVERNMENT HOUSE AT
OTTAWA.

Saturday, the 21st day of May, 1910.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-
GENERAL IN COUNCIL.

THE Minister of the Interior, under date the 13th May, 1910, refers to a memorandum by him to Your Excellency in Council of even date herewith, referring to two applications by the Vancouver Power Company in connection with hydraulic undertakings in the Railway Belt of British Columbia, proposed to be undertaken by it—the one in connection with Jones Lake, which lies wholly within the said Railway Belt, and the other in connection with Chilliwack Lake, which lies partly within and partly outside the said Railway Belt.

Copy of the Company's application in respect of Chilliwack Lake is hereto attached marked "A."

The Minister recommends that in respect of the Chilliwack Lake application he be authorised to at once have prepared an agreement to be entered into between the Minister of the Interior, as representing the Government of Canada, and the Company, and which shall contain provisions covering the following matters:—

1. The safety of the proposed dams and other works.

Detailed plans and specifications to be submitted to the Minister of the Interior for approval by him as soon as practicable and within one year from date, and such plans and specifications to be examined by an engineer of recognised standing in such matters, appointed by the Minister of the Interior, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company, and such plans and specifications to be subject to such changes as the said engineer may advise before being approved by the Minister of the Interior. Provision to be also made so far as the Minister considers necessary in the public interest for inspection by an engineer appointed by the Minister, and the account for such engineer's services to be rendered by the Government to the Company and paid by the Company. The works to be inspected

by said engineer as they are proceeded with after the plans and specifications are approved.

2. Rights in the waters of Chilliwack Lake for agricultural and domestic purposes.

The rights that may be claimed in the waters flowing from Chilliwack Lake for agricultural and domestic purposes to be safeguarded by a provision that the Minister of the Interior may require the Company to release such water for the purposes stated as he may from time to time direct.

3. The rights of lessees of timber from the Department of the Interior on lands within the Railway Belt surrounding the said lake or on the river flowing out of the said lake, or of the lessees of timber on Provincial Government lands lying outside the Railway Belt, in respect of the use by the said lessees of the waters from the said lake for the purpose of driving logs.

The Minister of the Interior to have the right to direct from time to time at the request of such lessees that the Company shall release such water for the purpose of driving logs cut from the said lands under lease surrounding the said lake and along the said river, as he may think proper in the interest of the said lessees.

4. The rights of any of the above lessees so far as timber rights under licence to them will be prejudicially affected by the proposed flooding of lands surrounding the said lake.

The Company to file in the Department of the Interior, before actual construction commences under the plans and specifications to be furnished by the Company and approved by the Minister, a release and settlement with each of the said lessees as to any rights to timber within lands under lease to them respectively and which will be prejudicially affected by the proposed raising of the waters of the said lake.

5. The rights of lessees of timber from the Department of the Interior on lands on or in the valley of the Chilliwack River along or in the vicinity of the proposed ditch or flume.

The Company to file in the Department of the Interior, before actual construction commences under the plans and specifications to be furnished by the Company and approved by the Minister of the Interior, a release and settlement with each of the said lessees for the timber on such portions of the land taken for right-of-way for the said ditch or flume as are included in their leases respectively, and for any damage or injury which may be caused in the operation of the said leases by the construction and operation after completion of the said ditch or flume.

6. Timber on lands belonging to the Crown in the right of the Dominion and not under licence and which may be used or destroyed by the Company.

The Company to pay into the Department of the Interior the usual dues under the regulations on all such timber.

7. The question of possible injury to fishing interests through the erection by the Company of any of the proposed dams.

The Company to file in the Department of the Interior, before actual construction under the approved plans and specifications has been commenced, a statement by the proper officers of the Marine and Fisheries Department that all provisions considered necessary have been made in the plans and specifications.

8. Provision for the faithful carrying-out of the work of construction of the dams and works and for the payment by the Company of all damage that may be caused by the said dams or works.

(a.) In the erection of the dams and works the Company shall faithfully adhere to the plans as finally approved by the Minister of the Interior, subject to such modifications as may be found necessary and shall be approved by the Minister of the Interior.

(b.) The Company shall, if required, submit to the Department of the Interior detailed plans of any portion of the works as they are developed.

(c.) Weekly reports of progress during construction shall be submitted to the Minister of the Interior.

(d.) The Minister of the Interior shall have the right to place an Inspector on the work for the

purpose of seeing that the work of construction of the dams and other works is carried out in accordance with the approved plans and the proposed agreement; the salary of such Inspector to be paid as hereinbefore provided.

(c.) The Company shall after the completion of the dams maintain and operate the same to the satisfaction of the Minister of the Interior, who shall have the right, at the expense of the Company, to have the same inspected as the Minister may require by an officer appointed by the Minister.

(f.) The Company shall furnish and keep in force security approved by the Minister of the Interior for the payment by it of all damage that may at any time be occasioned by the construction or operation of the dams or works, or by any breaking of or other injury to said dams or works after their construction, and the said security shall also be held to cover any ascertained damages to lands on Chilliwack River by reason of the normal flow of the water being diverted from said stream.

9. The Company's application to purchase land for its works.

The Minister of the Interior to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "B," and to be authorised to convey, under conditions hereafter fully set out, to the said Vancouver Power Company from out of the said lands the following:—

(a.) Land necessary for site of temporary and permanent dams at the outlet of Chilliwack Lake, not exceeding 80 acres.

(b.) Land necessary for tunnel portals for the tunnel to carry the waters from Chilliwack Lake, not exceeding 80 acres in all.

(c.) Land necessary for diversion dam on the Chilliwack River, not exceeding 40 acres.

(d.) Land necessary for right-of-way 400 feet wide for the flume or ditch to carry the waters to be diverted from the Chilliwack River and extending from lands to be granted for the said diversion dam on the Chilliwack River to the land to be granted for the tunnel portal.

(e.) Land necessary for the right-of-way 400 feet wide for the tunnel to carry the waters to be diverted from the said Chilliwack River and extending from the land to be granted for the portal at the upper end to the land to be granted for the portal at the lower end.

(f.) Land necessary for the right-of-way 400 feet wide for the steel outlet-pipes connecting the tunnel to carry the waters to be diverted from the Chilliwack River with power-house and extending from the land to be granted for the lower portal of the said tunnel to the land to be granted for the power-house site in connection with Jones Lake application.

10. The Company's application for land for flooding purposes around that portion of Chilliwack Lake within the Railway Belt.

The Minister to reserve in the records of the Department of the Interior from sale or other disposition the lands described in Schedule hereto attached marked "C," and to be authorised to issue a lease in the name of the Company for such portions of the said lands—estimated at a total of 2,679 acres around Chilliwack Lake—as are found on actual survey by a Dominion Land Surveyor, employed by the Company and under instructions from the Department of the Interior, to be below contour lines 50 feet above the normal level of the said lake; said lease to provide for an annual rental, payable each year in advance, of 25 cents per acre, and to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development by the Company, and said lease to be issued only after conveyance to the Company of the land for its other works as herein provided for.

11. The Company's application for roads.

The Company to be allowed to lay out and survey through lands the property of the Crown in the right of the Dominion, by a Dominion Land Surveyor, land necessary for a roadway along the Chilliwack River to Chilliwack Lake to give

access to any of the proposed works; and the Company shall not be called upon to make any payment for such land to the Government, but shall survey the said roads within one year of the date of this Order in Council, and upon approval of the surveys by the Surveyor-General, cause the land to be dedicated to the public for use for roadway purposes.

12. The continuous prosecution to successful completion of the proposed undertakings.

The Company to proceed with diligence with the construction of the works as soon as practicable after approval of its plans and specifications by the Minister of the Interior, and to spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000, failing which the reserve on all the lands applied for may be withdrawn, and if such withdrawal of reserve takes place all claim by the Company on any of the said lands shall cease. The Company to complete all the works in connection with the Chilliwack Lake development within ten years of the said date of approval of the plans and specifications; and (a) should the Company not file plans and specifications for approval within one year of the date of this Order in Council, or (b) should the Company not spend in actual construction operations within one year from the date of approval of said plans and specifications a sum of not less than \$25,000, or (c) should the Company not use due diligence in prosecuting the work to successful completion for the remainder of the period allowed, or (d) should the Company fail to complete the said works within the said ten years, he may call on the Company to show cause why he should not withdraw the reserve on all the lands applied for, and why he shall not declare the Company to have forfeited all claim on any of said lands; but if the Company shall show to the satisfaction of the Minister of the Interior that it has spent not less than a half of a million dollars on the Chilliwack Lake development in each year subsequent to the 1st (first) year after the approval of the plans and specifications, then no action shall be taken by the Minister towards the withdrawal of the reserve on any of the lands till the expiration of the ten-year period allowed for completion.

13. The conditions to be fulfilled before conveyance to the Company of any of the lands applied for:—

(a.) Completion of all the works connected with the development of the water-power from Chilliwack Lake to the satisfaction of the Minister of the Interior in accordance with the terms of this Order in Council, as hereinbefore provided for.

(b.) Payment by the Company into the Department of the Interior of the required amount at the rate of \$10 per acre.

(c.) Patents to the Company to contain a proviso that the lands are not to be used for any other purpose than for and in connection with the water-power development of the Company.

(d.) The Company to file in the Department of the Interior plans of survey by a Dominion Land Surveyor approved by the Surveyor-General showing the lands required.

(e.) The Company to procure and file in the Department of the Interior unconditional release of claim of any person in occupation of any of the lands at the date of this Order in Council.

14. The approval of the Company's undertakings and authority to proceed with construction.

When the Company's plans and specifications have been completed and approved by the Minister of the Interior as hereinbefore provided for, the Minister of the Interior to be authorised to give the Company permission to proceed with its undertakings.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,
Clerk of the Privy Council.

VANCOUVER POWER COMPANY, LIMITED,

Vancouver, B. C., 9th May, 1910.

Honourable Frank Oliver,
Minister of the Interior,
Ottawa.

SIR,—I have the honour, on behalf of the Vancouver Power Company, further referring to our application dated September 8th, 1909, to respectfully solicit your approval of our proposed undertaking in the matter of power development from Chilliwack Lake, District of Yale, Province of British Columbia.

Chilliwack Lake lies in the extreme south-western corner of the District of Yale, the lower end being close to the international boundary. The waters of the lake supply more than half the flow in Chilliwack River, which river is for many miles torrential in character, but in the lower reaches the grade flattens and the waters spread over the rich low-lying areas in Chilliwack and Sumas Municipalities, creating the chief obstacle to their successful reclamation. Any undertaking, therefore, which will result in the diversion of a considerable portion of the volume of water in Chilliwack River will bring the reclamation of these areas within practicable bounds. Under present conditions, the enormous cost of controlling and disposing of the waters of Chilliwack River places reclamation out of the question. Our Consulting Engineers estimate that 50 per cent. of the normal flowage will be diverted under the plan of development proposed, while the controlling dam which will be erected at the foot of the lake will regulate the lake discharge and tend to further reduce freshet volume. Consequently, the public interests will be greatly benefited by the carrying-out of the proposed undertaking.

The elevation of Chilliwack Lake is 2,080 feet above sea-level, and its area is about 2,600 acres. The extent of the drainage basin has not been definitely ascertained, as a portion of it extends into United States territory, and the country is so mountainous and rugged as to make it very difficult of access.

Water Required.—The quantity of water which we applied for is 500 cubic feet of water per second. This under an effective head of 1,800 feet will deliver 80,000 continuous horse-power on the wheel-shaft.

Plan of Development.—It is proposed at first to construct a rock-filled timber-crib dam at the outlet of Chilliwack Lake of sufficient height to raise the level of the lake 20 or more feet. The dam will be provided with a spillway for the passage of flood waters, and gates and valves for control and discharge of stored water. This structure will provide for sufficient storage to meet all water requirements until the power demand is so increased as to demand the full output of the ultimate development, when it will be replaced by a dam 50 feet in height.

About half a mile down-stream from the storage dam, a lower dam will be constructed to divert the water out of the stream-bed into a flume or ditch. This dam will also be provided with a spillway.

From the diverting dam a flume or ditch will be constructed on the north side of the river for a distance of $10\frac{1}{2}$ miles to Ford Creek.

Before the level of the water in the lake is raised by means of the dam, a tunnel commencing at the end of the flume into Ford Creek Canyon will be driven through the mountains to the valley of the Fraser River. The tunnel will be 14 by 16 feet and $5\frac{1}{4}$ miles in length.

From the outlet of the tunnel steel pressure-pipes will be laid to the power-house erected in connection with the Jones Lake development on Section 15, Township 3, Range 28.

The initial installation will consist of three 10,000 horse-power water-wheels. Later additional power units will be added as required until the maximum development is reached.

Land Required.—The lands required for this undertaking are shown on the accompanying map, as follows:—

Around Chilliwack Lake.....	2,679	acres.
Flume right-of-way, 400 ft. wide...	522	"
Tunnel " " " " ...	245	"
Pipe-line " " " " ...	51	"
	3,497	"

The flooded area is assumed to be 2,377 acres, but as required by the regulations of the Department all legal subdivisions are included intact. The actual area required around the lake will, therefore, be considerably less than the above figures. Provincial lands at the lower end of the lake are not included in this application.

There are no Crown-granted lands in the territory affected by this undertaking, nor are there any pre-emption applications from intending settlers.

Around Chilliwack Lake there is little or no timber, but on the mountain slopes bordering the river there are some fine bodies of timber, which are held under licence. The flume right-of-way will not affect these holdings in an important degree.

Cost of Undertaking.—The total estimated cost of the Chilliwack Lake development is \$7,148,400 plus such charge as may be made for the lands conveyed.

Further Details.—For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, which gives a full general outline of the plan of development, details of cost, and much other valuable matter.

Provincial Records.—The Vancouver Power Company holds three records from the Provincial Government of British Columbia covering 40,000 miner's inches of water out of Chilliwack. These records are numbered 45, 46, and 47 respectively, and were issued January 17th, 1908.

General Requirements.—Inasmuch as not less than six years, under the most favourable conditions, will be required to complete this development, the Company is very anxious to make an immediate commencement of work, and to permit of this, and so enable us to build roads and trails, establish camps, mills, and transportation facilities during the present summer, your favourable action on the following matters is respectfully requested:—

- (1.) Approval of undertaking.
- (2.) Grant of licence to take from Chilliwack Lake 500 cubic feet of water per second.
- (3.) Permission to erect a temporary dam at the foot of the lake 25 feet in height, and ultimately to replace this with a dam 50 feet in height.
- (4.) Authority to erect a diversion dam on Chilliwack River, and to divert the aforementioned volume of water from the river by flume and tunnel to the power-house situated on Section 15, Township 3, Range 28, as shown on plan herewith.
- (5.) Authority to flood the area surrounding the lake as shown on plan herewith, and lease of said flooded areas.

(6.) Permission to purchase a right-of-way for tunnel and flume 400 feet in width from the diversion dam on Chilliwack River to said Section 15.

(7.) Permission to purchase such lands as may be necessary for dam-sites and tunnel portals.

(8.) Authority by Order in Council, in the absence of legislation bearing on the subject, to proceed with the undertaking at once.

Rentals and Conditions.—The Company agrees:

(1.) To pay the Government such rate for water licensed as the regulations of your Department may require.

(2.) To pay such price for tunnel and flume right-of-way, tunnel portals, and dam-sites as you may fix.

(3.) To pay such rental per acre for the flooded areas as you may fix.

(4.) To compensate the timber-licence holders for such portion of their limits as may be flooded by raising the level of the lake, and also for such timber as may be contained in the tunnel and flume right-of-way.

(5.) To reimburse your Department any cost which it may be obliged to incur in investigating

these or any other claims with respect to the proposed undertaking.

(6.) To submit for your approval before the work of construction is begun the plans of the proposed dam, and to compensate the Government for any engineering or other costs it may incur in investigating the suitability and stability of the plans submitted.

(7.) To pay the royalty on all merchantable timber which may be removed or used by the Company in connection with its work.

(8.) To faithfully perform all conditions and regulations which you may consider necessary and proper to impose.

Conclusion.—The Chilliwack Lake development is one of the largest and most costly ever undertaken on this continent, but we consider it justified by the present and prospective rapid growth of our electric railway system, and industrial conditions generally in the lower mainland districts. The most serious drawback, however, to the undertaking is the length of time required in construction—namely, six years. One year of this will be required to build roads, organise transportation, and assemble construction equipment. For this reason, and in view of the fact that we fully expect to be urgently in need of additional power by 1916, it is of first importance that we be able to make a commencement this season. We therefore most respectfully solicit your early and favourable action herein.

I have the honour to be,
Sir,
Your obedient servant,
(Sgd.) F. R. GLOVER,
Asst. General Manager.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 21st day of May, 1910.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

THE Minister of the Interior, under date the 13th May, 1910, refers to an Order in Council of the 21st May, 1910, referring to two applications by the Vancouver Power Company in connection with hydraulic undertakings in the Railway Belt of British Columbia, proposed to be undertaken by it—the one in connection with Jones Lake, which lies wholly within the said Railway Belt, and the other in connection with Chilliwack Lake, which lies partly within and partly outside the said Railway Belt. Copy of the Company's application in respect of Jones Lake is hereto attached marked "A."

The Minister observes that the Company, in its said application in respect of Jones Lake, asks, in addition to its application for the necessary lands and approval of its proposed works and authority to proceed with construction of the same, all of which matters are dealt with in the said Order in Council, that—

1. Licence be granted to take from the waters of Jones Lake 200 cubic feet per second.

2. Authority be given to divert the volume of water as above stated from the said lake by tunnels and flumes as described in the said Order in Council.

3. Authority be given to flood the areas surrounding Jones Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Minister further observes that the Company has already applied, under date March 11th, 1910, for a licence to take from the waters of Jones Lake the amount of water stated in its application, viz.: 200 cubic feet per second, and is the prior applicant.

The Minister states that he sees no objection to the application of the Company in respect of the matters above referred to being granted under proper control as to the rental to be charged for the use of the water and the rates to be charged to consumers of the power, so soon as the authority of Parliament is given vesting in the Governor-General in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, and subject to the fulfilment of all the conditions of the agreement provided for in the above-mentioned Order in Council relating to the lands necessary for the development in connection with Jones Lake.

The Minister, therefore, recommends that he be authorised to have prepared an agreement to be entered into between the Minister of the Interior, as representing the Government, and the Company, and which shall contain provisions covering the Company's application for licence to take and divert 200 cubic feet per second of the waters of Jones Lake and to flood the areas surrounding Jones Lake to the extent that the proposed permanent dam will raise the waters of the said lake.

The Minister of the Interior to agree, on behalf of the Government of Canada, that so soon as the authority of Parliament is given vesting in the Governor-General in Council the authority to administer undisposed-of waters in the Railway Belt for power purposes, but subject to the fulfilment of all the conditions of the agreement provided for in the Order in Council above referred to relating to the land necessary for the development in connection with the Jones Lake, he shall cause to be issued to the Vancouver Power Company a licence to divert and use 200 cubic feet per second of the waters of Jones Lake; such licence to be issued under regulations similar to those now in force governing the administration of water-power in Manitoba, Saskatchewan, Alberta, and the North-West Territories; and in issuing this licence for the use of water to the said Company, such licence shall conform as nearly as may be to clauses 1, 2, 3, 5, 6, 7, 8, 9, 10, and 11 of the said regulations, except only that portion of subsection "f" of said section 8 which relates to the return to the stream or other source of water of the full amount of water diverted.

The Minister further recommends that upon the said agreement having been prepared and executed by the Company, he be authorised to sign and execute it as representing the Government of Canada.

The Committee submit the same for approval.

RODOLPHE BOUDREAU,

Clerk of the Privy Council.

VANCOUVER POWER COMPANY, LIMITED.

Vancouver, B. C., May 9th, 1910.

Honourable FRANK OLIVER,

Minister of the Interior,
Ottawa.

Jones Lake Development.

SIR,—I have the honour, on behalf of the Vancouver Power Company, Limited, further referring to our application to you dated March 11th, 1910, in which we applied for two hundred (200) cubic feet per second of water out of Jones Lake, District of Yale, Province of British Columbia, to respectfully submit the following:—

Vancouver Power Company, Limited.—The Company is one of the subsidiaries of the British Columbia Electric Railway Co., Ltd., and was incorporated January 25th, 1898, pursuant to Part IV. of the "Water Clauses Consolidation Act, 1897," of the Statutes of British Columbia. The objects for which the Company was established were (inter alia) the acquisition of water for hydro-electric development, the generation of electricity for light, heat, and power purposes, and the construction and operation of electric railways, etc. The Company owns and operates the Coquitlam hydro-electric undertaking, and furnishes the British Columbia Electric Railway Company with all the electric energy required for operating its railway, lighting, and power system on the mainland of British Columbia. The Company also owns the railway, light, and power systems in North Vancouver, City and District, and is at present constructing an electric railway sixty-five miles in length from the City of New Westminster easterly through the Fraser Valley to the City of Chilliwack. It has also in contemplation the construction of other lines which will materially assist in promoting the development and prosperity of the lower mainland region of the Province, but cannot actively prosecute these new enterprises until assured of a further power-supply.

The capital of the Company is \$2,500,000, fully paid, but it has expended to date over \$5,000,000

on its hydro-electric development and railway enterprises.

Jones Lake.—The lake is situated in a valley high up in a spur of the Cheam Mountains east and north of the Town of Chilliwack, and about seven miles east of Agassiz, a station on the Canadian Pacific Railway. The lake lies at a level of about 1,950 feet above sea-level, its surface area is 1,263 acres, and its drainage area is approximately forty square miles. There are no fish in the lake, and there is no settlement in the locality owing to the rough and mountainous conditions thereabouts. No Crown lands have been alienated in the district affected by the proposed undertaking, but application has been filed for one or two small areas adjoining the Fraser River in the section on which it is proposed to erect the generating plant and its accessories. Several timber licences have been issued on lands bordering the lake.

Plan of Development.—It is proposed to construct at first a rock-filled timber-crib dam at the outlet of the lake of sufficient height to raise the lake-level 20 feet, and at a later date to construct a 50-foot dam of permanent type.

Before the level of the water in the lake is raised by means of the dam, a tunnel will be driven from the most westerly point on the shore-line through the mountains to their western slope in the valley of the Fraser, a distance of 10,200 feet, and from the outlet of the tunnel to the power-house located on the bank of the Fraser River the water will be conveyed by pressure-pipes, 6,000 feet in length.

To begin with, it is proposed to utilise 100 cubic feet per second, which under an effective head or fall of 1,800 feet will develop 16,300 continuous horse-power on the wheel-shaft, and give a peak load of 27,200 horse-power. There will be three 10,000 horse-power maximum output water-wheels of the impulse type, and the power-house will be constructed of concrete and fire-proof throughout.

For your further information I am enclosing herewith the report of our Consulting Engineers, Messrs. Sanderson & Porter, New York, on the Jones Lake proposition. This report gives a full general outline of the plan of development.

Lands Required.—The land required for this undertaking is shown on the accompanying map, and is as follows:—

Around Jones Lake.....	3,057	acres.
Tunnel right-of-way, 400 ft. wide..	94	"
Pipe-line " " "	58	"
Power-house site.....	446	"
Total.....	3,655	"

These areas have been taken from map measurements as the Government surveys have not been completed in this district. Probably somewhat more land is applied for for power-house purposes than is absolutely necessary, but on account of the importance of the undertaking and the magnitude of the expenditure involved, which, with the Chilliwack Lake development, will reach a total of over \$10,000,000, it is thought best to secure ample room for the homes of the large staff of employees which will eventually be gathered there, as well as for the many buildings, shops, etc., which are accessory to the main plant.

The total area of land applied for surrounding the lake—namely, 3,057 acres—is more than actually required, but following the regulations laid down by the Department the whole of each subdivision touched is included. The actual flooded area when the 50-foot dam is built will be approximately 1,040 acres.

Cost of Undertaking.—The total estimated cost of the Jones Lake development is \$2,206,625 plus whatever charge may be made for the land conveyed. Details of cost will be found in the report of our Consulting Engineers, a copy of which is submitted herewith.
